***Information Disclosure Statement***

1. The information disclosure statement filed 6/9/003 fails to comply with 37 CFR 1.98(a)(1), which requires the following: (1) a list of all patents, publications, applications, or other information submitted for consideration by the Office; (2) U.S. patents and U.S. patent application publications listed in a section separately from citations of other documents; (3) the application number of the application in which the information disclosure statement is being submitted on each page of the list; (4) a column that provides a blank space next to each document to be considered, for the examiner's initials; and (5) a heading that clearly indicates that the list is an information disclosure statement.
2. Furthermore, the information disclosure statement filed 6/9/03 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed.

However the IDS has been placed in the application file. Furthermore, because the applications listed on the submitted document are accessible to the Examiner and because the relevance of the documents may be ascertained by a review of the claims and summaries of the inventions, the Examiner has considered the documents listed on the supplemental disclosure document received 6/9/03. These documents have been listed on a Form 892 to clarify that the Examiner has considered these documents.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rachel L. Porter whose telephone number is (571) 272-6775. The examiner can normally be reached on M-F, 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Thomas can be reached on (571) 272-6776. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
